

Thank You - Brother Sun

Come on let's use our energy.
To work as one in harmony.
We can do wonders, and have fun.
Just look above and watch the sky.
Fill with a glow that blinds the eye.
Move clouds away, here comes the sun.

Shining bright - what a sight.
Wonderful, powerful, beautiful
Dazzling light, radiant white
Energy, all for free -Powerhouse.

Bring in the sunshine (x2)
Bring in the light (x2)
One giant battery (x2)
Super energy.

Thank you, brother sun
(God Bless you)
You're my number one
(God bless you)
Shine on in the sky forever more (x2)

Music: Alfred Camilleri
